Our Expertise

Crytek is one of the world's most innovative development studios for interactive entertainment with its headquarters in Frankfurt am Main and additional studios in Budapest, Kiev, Nottingham, Seoul and Sofia. Crytek's development team is comprised of game professionals from 36 different nations.

The multi-award winning company, that was recently awarded as top innovator and is thus one of the 100 most innovative middle-sized companies in Germany, is dedicated to creating exceptionally high quality video games for the PC and next-generation consoles, powered by their proprietary cutting edge 3D-Game-Technology CryENGINE®. Since its foundation by Avni, Cevat and Faruk Yerli in 1999, Crytek created the multi-award winning PC titles Far Cry®, Crysis®, awarded best PC Game of E3 2007 and Best Technology at the 2008 Game Developers Choice Awards and Crysis Warhead®, awarded for outstanding real time visuals in a video game at the 7th Annual VES awards.

In line with the 2009 E3 in Los Angeles, Crytek announced the development of the sequel to its popular action franchise Crysis and revealed that Crysis 2 will be developed simultaneously for the Xbox 360™, PS®3 and PC powered by CryENGINE® 3.
