

Mitteldeutsche
Medienförderung

REGIONAL NATIONAL INTERNATIONAL

Mitteldeutsche Medienförderung GmbH (MDM) supports economically promising game projects with special focus on project development, i.e. the creation of prototypes. An important criterion for support is a lasting regional effect in the federal states of Saxony, Saxony-Anhalt or Thuringia.

projects funded by MDM:

Drakensang

Galaxy Racers

Jekyll and Hyde

Our Expertise

Mitteldeutsche Medienförderung GmbH (MDM) is the regional film funding body in Central Germany (Saxony, Saxony-Anhalt and Thuringia). Shareholders are the three federal states of Saxony, Saxony-Anhalt and Thuringia and the two German public broadcasters Mitteldeutscher Rundfunk (MDR) and Zweites Deutsches Fernsehen (ZDF).

Since its foundation in 1998, MDM has also been supporting economically promising multimedia projects. Since 2001 funding in this area has been mainly targeted at games.

Funding can be granted as conditionally repayable, interest free loans. Apart from a high quality of the project in terms of content and gameplay as well as economic and technical know how of the developer, important criteria for funding are sustainable economic effects in Saxony, Saxony-Anhalt or Thuringia.

Furthermore, MDM supports **hands-on training and qualification opportunities** for developers in the region.

Our Goals

- Support of economically promising game projects
- Support of regional game developers and strengthening of the regional economic infrastructure
- Industry growth
