Our Expertise

Since its founding over 15 years ago, ATLAS Interactive has not only pioneered the micro payment industry but built the necessary relationships to bring their wide range of clients the solutions, products, rates, and customer service they deserve in over 85 countries. With offices in Hamburg, Cologne, London, Beirut, São Paulo and San Francisco, ATLAS Interactive reaches a large part of the globe. During the last few years, ATLAS Interactive has been heavily focused on the gaming industry working with some of the top online gaming companies in the world. It is due to this reason that ATLAS Interactive is one of the most trusted sources for all things micro payment.

This year ATLAS Interactive opened its newest location in San Francisco, CA in the USA. This puts ATLAS Interactive in the heart of the gaming industry and offers our range of solutions to a whole new market. ATLAS Interactive has also launched InGame Alerts. When one of your users has been away from the game, you can have an automated message calling the user in a characters voice to remind him/her of the game and offer special deals.

Key Projects
