Our Expertise

With more than 30 million registered players and thousands of new registrations per day, our company ranks among the leading browser game providers and producers world-wide. Founded in 2006, we have published over 20 games to date. Constantly reinventing established genres, our dedicated employees at our company seat in Bamberg, Germany, work tirelessly on maintaining and updating our released versions, as well as on producing new games, using state-of-the-art technology. Our focus on gameplay, carefully crafted graphics as well as community-management, has gained us several awards already, such as »Browser game of the year« and »Best casual game«, proving that our efforts in constantly improving game-mechanics and graphics, in short, to constantly excel ourselves, are fully justified.

If you are a developer searching for a strong partner to publish your game, please do not hesitate to get in touch with us. With our games portal upjers.com, a large team for internationalization and many top-class partners to integrate your game, we offer great opportunities to get your game going.
